Dear Drag Cartoons,

I just got finished looking at the Nov. Drag Cartoons and want to say that you guys really know how to draw 23 T roadsters.

The cover was outa-site! I think a cartoon of a T coupe would be even better! I also enjoyed the Dr. Crankenstein cartoon.

The Nov. issue has to be the best issue yet. Keep it up.

Tom Harrison
Pomona, Calif.

Dear Drag Cartoons,

When are you guys going to do a story on Barry Setzer, Sidney Foster, Ray Alley, Rich Cuasco, Candies & Hughes, Jerry Ruth, Gene Conway, and I dig your magazine.

Your Canadian Fan
C. J. Carlick

P.S. Please keep up the good art work.

Dear Drag Cartoons,

I was sitting in my Physics XIV class when I came across a story labeled "Nifty Lift" (Sept. '72). Ol' Harv really didn't come up with a good idea. He was really making things worse. He was reducing the weight, not the mass.

Reducing the weight would improve (decrease) the rolling resistance, but he would have no traction off the line or very much steering control at higher velocities.

Mass is the cause of high e.t.'s because it has inertia (in this case, the resistance of an object to either begin to move from rest or increase speed). Adding helium would not reduce the mass. To reduce mass, you must remove it or replace it with something

less massive, such as: magnesium blocks, aluminum body panels, heads, and transmission cases.

And then the professor ripped off with my copy of "Drag Cartoons". Can you beat that? Say with an old Isky "five-cycle" cam?

Clarke Waldron
San Luis Obispo, Calif.

Dear Drag Cartoons,

I really liked the September issue with the drag racer on the cover. I might be a drag racer when I grow up. Pretty soon I may be getting a job at my brother's work. He's a welder, so I can learn more about cars. I like your Scene of the Month. They are out-a-site. Hope to see this letter in the next issue. Have to go to bed now, bye.

Chris Joy, Age 10
Paramount, Calif.

Dear Sirs,

I really like your story called Don the Snake and his Mattell Toy in the July issue. I think the Scene of the Month is neat.

I liked the cover on the July issue, so please make some more monsters.

Rocky Johnson
Wayne, Mich.

Dear Drag,

I think your book is great. I also like your Scene of the Month. In your September issue I really like the food cars, and I really like Vee Dub.

I would like to know about contests. I want to know if it's going to be on How to Draw.

And keep up the good work.

Elaine Shores

Dear Drag Cartoons,

I hope you guys at Drag Cartoons have another drawing contest soon. I've been drawing every How To Draw lesson that has been in your fine magazine and I'm now ready to do battle with other future artists. I like to draw the Dragsters and Funnies most of all.

Don Carrie

Dear Sirs,

I've been reading Drag Cartoons for about a year now and have never yet seen a cover cartoon drawing of TV Tommy Ivo.

I've seen pictures of his new mid-engine dragster in other Drag Racing magazines but have yet to see a cartoon on him.

He's my favorite drag racer, so you guys get on the ball and do something about it!

P.S. I really dig Drag Cartoons, even if you don't have Tommy Ivo in it.

Jerry King
Dallas, Texas

Dear Sirs,

Out of all the other cartoon books, I am writing you "Drag Cartoons" to tell you that I like your mag. the best.

It is more true to life Drag Racing! Its situations are believable "sometimes"! HA!! The race cars are more life like than the originals. The Characters are likeable, and you add an interesting educational section to it in the form of "How To Draw."

All I want to say is, Keep up the good work.

HAND Signals

THIS PAGE IS DEVOTED TO THOSE "NOT SO LEGAL" HAND SIGNALS WE SEE WHILE DRIVING THE CITY STREETS.

THIS ONE USUALLY MEANS A LEFT HAND TURN, IT'S REALLY A GIRL DRYING HER FINGERNAIL POLISH.

THIS HAND SIGNAL IS WHAT IS CALLED A RIGHT HAND TURN SIGNAL. THE ONLY THING WRONG HERE IS THE DRIVER IS SITTING ON THE WRONG SIDE OF THE DRIVERS POSITION. DUMMY!!

WE HAVENT FOUND THIS ONE IN THE RULE BOOK YET. THE ONLY THING WE CAN FIGURE OUT IS THE GUY BEHIND THE WHEEL HAS'NT FIGURED OUT WHICH HAND SIGNAL TO USE FOR DROPPING HIS LIT CIGARETTE BETWEEN HIS LEGS.

THIS IS THE MOST POPULAR HAND SIGNAL USED. MAINLY IT'S USED IN CASE OF A BAD CRASH OF SOME SORT, OR A SIMPLE WAY OF TELLING THE OTHER DRIVERS WHAT YOU THINK OF THEIR DRIVING ABILITY.

The Light Weight of the "H. A. L. Twelve"

The shipping weight of the "H.A.L. Twelve" is 3555 pounds.

The scientific design has sacrificed nothing in the way of strength to permit this weight

All attempts in several long and terrific tests to find a weak spot in its construction have been without result.

That, you will agree, is an unusually light weight for a car of its strength, power, luxurious roominess (115 inch wheelbase) and elegance of equipment.

That weight, 3555 pounds, is from 200 to 1000 pounds less than the weight of virtually all other cars of similar capacity and a power approximating the power of the "H.A.L. Twelve."

That light weight, with the tremendous strength, power and flexibility of the motor, gives the "H.A.L. Twelve" its wonderful pick-up, its buoyancy and thrilling sense of life.

Light Weight and Sturdiness are Vital Factors Today.

With the increased cost of tires and many other upkeep expenses rapidly and continually soaring,

The car of light weight with great power will naturally dominate.

The prospect's first question of the dealer will be "How much does the car weigh?"

Then he will ask "How does the weight correspond with the power of the motor?"

The dealer without a car light in weight and with the strength and power properly proportioned, works under a handicap.

That is one reason why the "H.A.L. Twelve" will be the big seller.

That is why the "H.A.L. Twelve" will readily appeal to all classes of buyers.

Back of the "H.A.L. Twelve" are men of wide manufacturing experience and sound financial standing. Back of the "H.A.L. Twelve" are the reputation, the prestige and the achievements of Harry A. Lozier.
